

**InterForum** Limited Partnership was established in 2000. It consists of young professionals with experience in the field of consulting, especially as far as Community law and policies, Structural Funds, Local Development and programmes co-funded by the European Union are concerned.

InterForum aims at starting synergies and relationships with Europe and its States, in order to create a future of collaboration and integrated development. This can be done only if professional figures, competence systems and the production capacity of territories are strengthened. It is clear that InterForum can play an important role to support and spur the reference market.

With its activity, InterForum helps:

- Spreading information about EU;
- Developing services for consulting, support to planning and management of projects with Community, national and regional funds;
- Promoting training in the field of Community law and policies;
- Giving specific legal advice on the relationships between internal law and Community law.

Our **main fields of intervention** are: Local Development, Cooperation, Vocational Training, Community and International Law, Culture, Social Inclusion

In order to carry out its activity and to make the above described sectors operational, InterForum:

- Acquaints people with Community programmes and initiatives (news, calls for tenders, deadlines);
- Writes information reports on open programmes;
- Acquaints people with Community, national and regional law;
- Acquaints people with Community-related events, meetings and seminars;
- Carries out studies and researches on subjects related to Community law and Local Development.

InterForum's main **partners** are: Public Administrations, local and regional bodies, Universities, professional categories, SMEs, associations and local development actors.

InterForum's activity is mainly focused on **supplying the following services**:

- Consulting
- Planning
- Training activities
- Information and documentation

InterForum is certified ISO 9001:2000 since 2004 for the following activities: "Development, consulting and management of project activities through the use of community, national and regional financial instruments"
